CAPABILITIES STATEMENT
AAA Mammoth Tree & Landscaping LLC

"Results Not Excuses"

Owned & Operated by a 100% Disabled Combate Veteran

WHO WE ARE

Since 2006, AAA Mammoth Tree & Landscaping has provided stellar service across Southern Arizona and proudly helped thousands of customers with tree removal in the Tucson area. As a veteran-owned and operated business, we hold the key values of doing all our work with integrity, staying in communication with our customers, and not wrapping up a project until it is thoroughly completed. Your safety, as well as the safety of our crew, is important to us, and we ensure that each tree service is provided properly to avoid any unnecessary harm to you, your family, your property, and our team. It is our mission to take care of your trees the best way we know how, and you can trust that two decades of experience, expertise, and knowledge will give you great results every time.

CORE COMPETENCIES

AAA Mammoth Tree & Landscaping LLC provides integrated instruction and hands-on, real-world training, supported by government oversight, to meet high standards and objectives for federal agencies.

<u>Arboriculture & Vegetation Oversight</u>

Tree Removal	Precision Tree Pruning	Cactus Removal
Hazard Tree Removal	Stump Grinding	Debris Clearing

<u>Ecological Responsibility & Integrity</u>

Maintaining ecological systems and habitat by eradicating invasive species, removing dangerous trees, and leaving intact native plants when viable.

DIFFERENTIATORS

AAA Mammoth Tree & Landscaping LLC, established in 2006, specializes in large tree removals, hazardous tree removals, emergency tree removals, tree pruning, stump grinding, and cactus removal. We have been awarded contracts with the Department of Veterans Affairs at the Southwest V.A. Medical Center and the Department of Homeland Security at Davis-Monthan Air Force Base. We have also been awarded contracts with local government agencies, including the Arizona Department of Veterans Services and the City of Tucson Water Department. For over 20 years, we have operated in this harsh environment, at times at 115°, and still accomplished our goals. We have proven time and time again that experience and knowledge, backed by hands-on, real-world training, exceed all expectations.
